Why? We Are A

A 'HEALTHY SWIMMING' FACILITY

✓ Ultra Violet Light Sanitation

Imagine swimming in a pool with LESS chemicals, NO irritations, NO offensive odors or the other disadvantages of highly dosed pools.

UV LIGHT kills bacteria, viruses, moulds and spores, even the ones that chlorine doesn't, AND it inactivates the nasty by-products of chlorine.

That is why it is strongly recommended by:

The US Center for Disease Control

The Facilities Dept of USA Swimming

And was used in

Beijing & Sydney Olympic Pools

✓ Wet Deck Pool

By having the water at the same level as the surrounding floor, a wet deck pool prevents stale air being trapped at water level, which can happen in the older style pools with the water below floor level.

✓ High Air Turnover

We fully replace the air in our pool building with 100% fresh air many times each hour. Health regulations require that a small amount of free chlorine is present in the pool. This is much lower than a pool that doesn't have UV, and has none of the nasty by-products of pools that have chlorine alone.

Eltham Swimming School is Renowned for Excellence in Swim Teaching

Now we tick all the boxes as a Healthy Swimming Facility

Why would your children want to learn to swim anywhere else?

ENROLMENT FORM

Requests:

(please tick)

- Prog. 1** Mon 18th Jan - Fri 22nd Jan '10
- Prog. 2** Wed 27th Jan - Sun 31st Jan '10
- Both Programs**

Time Preference:

(please number 1, 2 & 3)

- 8:30 - 9:00 am
- 9:00 - 9:30 am
- 9:30 - 10:00 am
- 10:00 - 10:30 am
- 10:30 - 11:00 am
