Smoking

Eltham Swimming School is becoming a **Smoke Free Property**. We have always been a smoke free building. Now we are a **Smoke Free Property**. We would ask that no smoking take place whilst on our site. This policy is in line with all children educational facilities.

Change Rooms

We have a **Female Only** change room, a **Male Only** change room and **Family** change room. Recently parents have been using the **Male Only & Female Only** change rooms to take children of the opposite sex into for changing. As these particular change rooms are often used by our teaching staff, by older children, and occasionally by adults, we need to ensure that they remain **Male & Female Only**, irrespective of the age of the children. The **Family** change room is provided to cater for all others.
